VOL. XXVII.—FOURTEENTH YEAR. RICHMOND, CONTRA COSTA COUNTY, CAL.—FRIDAY, MAY 14, 1915 NUMBER 94.

EYE MUSCLES SEVERED THAT SIGHT MAY BE RESTORED HIM

An operation performed at the Polyclinic Hospital in San Francisco by Dr. C. R. Blake of this city today in which several optic muscles had to be severed resulted in George Cruso, residing on Laurel avenue, Stege, regaining his complete eyesight again.

According to the physicians Cruso, has been subject to internal strobismus or 'cross-eye" since birth which became so bad of late that he was almost totally blinded.

When informed by doctors that several muscles and membraneous tissues surrounding his optic nerve would have to be severed he at first balked but was finally induced to submit to the operation. This according to Dr. C. R. Blake, is one of the first operations of its kind to be performed in this city which may result in the local surgeon being hailed as one of California's foremost oculists.

M'PHERSON IS FOLLOWING THE GOLD LURE

George W. McPherson, formerly in the real estate business in this city, but of late with offices in the Monadnock building in San Francisco, writes us that he is now engaged in gold mining in Siskiyou county. Mr. McPherson and his associates are operating two "giants," which is another name for hydraulic placer mining equipment, and he says that the ground pays from 40 cents to a dollar per yard.

Mr. McPherson declares that he is in a fair way to make a million dollars and when he gets the money he will bring it down to Richmond and buy some more property in order to double his money. Mr. McPherson is a rustler and we hope that his greatest expectations will be fully realized.

WHIST PARTY FOR ROYAL NEIGHBORS

Final arrangements have been completed by the members of Richmond Lodge of Royal Neighbors for the holding of a whist party in Pythian hall on Monday evening at which time a number of valuable prizes are to be offered.

Refreshments will conclude the evening's affair.

May 17—Whist party to be held by Richmond Lodge, Royal Neighbors, in Pythian hall.

WRITES FROM CHINA FOR KHAKI PANTS AND GLOVES

While China has the reputation of being the home of silk gloves, it has remained for former Richmond people to demonstrate that white silk gloves cannot be purchased there, such as is found in Richmond. Charles Geddes, who is now in the fields of China, in the employ of the Standard Oil company, has written home enclosing an order for several pair of Khaki trousers, special oilfield gloves, a Stetson hat, and incidentally asking that an outside purchase be made of several pair of white silk gloves for Mrs. Geddes. Mrs. Geddes is now in Peking, with Geddes working nearly 800 miles in the interior of the country.

PLAYGROUNDS ARE PLANNED BY THE BOARD

In pursuance of a plan that was passed upon by the Official Board of the First Christian church at its regular meeting last night, it is very likely that a young people's and children's playground will soon be opened and running in full blast in connection with several lines of work of that organization.

In presenting this matter to the consideration of his official board, Rev. Boyer gave a survey of the playground situation in general today, and showed how the idea of saving the four-year-olds was going over the older idea slumming around for the reclamation of the forty-year-olds, many of whom are never reclaimed at all. He urged that it was not only a high type of religious service to go out after humanity while it was yet in the knickerbocker stage of unfoldment, but that it was a most wholesome and justifiable business venture as well.

He called attention to the words of the late Alfred G. Vanderbilt—one of the victims of the ill-fated Lusitania, who, when he saw that all escape was being cut off from the throngs of men and women who were destined to go down, said to his valet: "Come, let us save the kiddies," and said that the heart of the world would respond to that sentiment with an appreciable sense of grateful remembrance for the man who voiced it.

In urging the interests of the playground in connection with the work of his congregation he called the attention of the board to the great waste space that was growing up with weeds and said: "Why may we not have growing up here, instead, a lot of American beauties—the boys and girls from all these rapidly filling up blocks about us?"

The proposition caught on and a committee composed of Mr. Will J. Norton, as chairman, was appointed to take steps to get the proposition into shape.

The fellow who says he can either drink or let it alone doesn't prove it by climbing onto the water wagon.—Toledo Blade.

HULANISKI TELLS OF TRIP

MONIED MEN INTERVIEWED

While engaged in covering the United States in thirty days, F. J. Hulaniski, former newspaper man of this city, and at the present time editor of the "Thinkograph" magazine, and booster of Richmond, has found time to write from his luxurious apartments in the Hotel Henry, at Pittsburg, to the people here.

"I have just arrived in this city from New York where I interviewed some of the biggest financial "guns" whom I could get a hold of on Wall street and was pleased to find all them in a receptive state of mind and willing to listen to my talk on the wonderful and thriving city of ours out west. Also chased down some factory people in New Jersey, Cleveland, Detroit and Omaha. I have established New York offices for the "Thinkograph" in the Marbridge building at 34th street and Broadway, where G. W. Phillips and E. E. Cooper will handle my eastern business.

"Expect to be home by June 1st."

SHELL COMPANY HAS BIG BRITISH CONTRACT

(Special dispatch to Record-Herald)

LONDON, England, May 14th.—The Shell Marketing company was organized in this city yesterday to supply the British government with petroleum and its various products.

With the British government awarding the contract to the Dutch Shell Oil company to supply it with petroleum during the war there promises to be a battle royal waged in this country between the new concern and the Standard Oil company.

With the receipt of the news at the company's refinery near Martinez today instant preparations were commenced for the getting ready of several tankers which will commence the transporting of oil to the various countries of the United kingdom.

Already the Standard Oil company has commenced the placing of several of its former coastwise tankers in the trans-Pacific trade that better competition might be afforded the Shell company when they should desire to enter the field.

Fearing the impending campaign which was to be waged against them the Rockefeller interests also commenced the opening up of the South American oil fields, their business between which ports is rapidly increasing at the present time.

It is reported that several costly improvements are contemplated for the Dutch Shell refinery at Martinez with the awarding of the recent British government contract.

OPTION FOR NEW BANK EXPIRES ON BUILDING

Unless final action is taken by directors of the new banking company composed of W. Stairley, George Lee and John Nicholl at their meeting being held in Oakland this afternoon their option taken on the Standard Pool and Billiard parlors will expire this evening, according to the statement as made by E. C. Mason, owner of the lease of the prospective banking site.

"It has been twenty days since the option was first taken on my property," stated Mason this afternoon, "and unless something is done at the meeting of the directors this afternoon the offer will expire."

The organization of the new banking concern came as a result of a shakeup in the Richmond Bank located at the corner of Richmond and Washington avenues on the west side.

Waverly Stairley, former cashier of the Richmond bank and supposedly one of the directors of the newly formed banking organization stated that he was in no position today to give out any information concerning the plans of the promoters of the new venture.

GRIM WAR IS NOT EXPECTED

U. S. MAY RECALL ITS ENVOY

BERLIN (via wireless to Sayville), May 14.—America's note to Germany regarding the sinking of the Lusitania with its attendant loss of American lives was presented to the foreign office early today by American Ambassador Gerard.

WASHINGTON, May 14—Germany will not yield to the demands embodied in President Wilson's note on the sinking of the Lusitania. She will attempt to justify her submarine warfare and will assert her right to continue her plans to destroy the commerce of England and other nations, now carrying munitions and war supplies to the enemy.

This, at least, was the belief which prevailed generally in diplomatic circles here today.

Then what? Germany herself must determine.

But it is not believed that President Wilson and his advisers will go further in the event of Germany refusing to comply with America's demands than to denounce the German nation as an outlaw among nations.

For war is not regarded as a possibility because Germany cannot strike back. Her warships, except for submarines, are marooned behind fortifications, and, therefore, she cannot send soldiers here.

On the other hand, it is not believed that the United States would send a fleet to European waters when there is nothing visible to fight.

(Continued on Page Four)

UNION OIL COMPANY BUSY INCREASING PLANT

Vying with its competitors, the Standard Oil company of this city and the Dutch Shell Oil company of Martinez, in the way of improvements, the Union Oil company at Oleum today commenced work on the construction of fifteen new storage tanks and a new petroleum filter plant, the total cost of which is to be $25,000.

A force or one hundred men were put to work this morning on the construction of the tanks and filter plant which is expected to be completed by June 15th.

Superintendent Olsen, in charge of the Oleum refinery, is also planning to lengthen the present wharf as used by the company that several of the big tankers may discharge their cargoes at the same time.

JUNIOR CLASS OF SCHOOL TO HAVE PICNIC

Miss Ruth Lent, daughter of Captain C. W. Lent, will entertain the members of the Freshmen Class of the Brentwood High School tomorrow with a picnic and launch ride on the San Joaquin river and its tributaries. The party, which will consist of twenty or thirty of the young men and women of that portion of the county, will start from Point of Timber in the launch "Virginia," and they will have along with them everything in the way of eatables to last them during the day.

Elaborate preparations have been made for the great event for the Juniors and the whole affair will be under the chaperonage of Captain and Mrs. C. W. Lent, the former to be in the pilot house of the "Virginia" in the capacity of "Skipper." The picnic will be held in a large grove on the banks of the San Joaquin and it is expected that the party will have a delightful time.

FORMER RICHMOND PASTOR CALLED BY DEATH

SAN RAFAEL, May 14. — The Rev. James Smith McDonald, the first Presbyterian minister to establish a church in Marin county, is dead here today at the age of 80 years. Rev. McDonald passed away at Corte Madera last night after a lingering illness. He was retired from the pulpit.

The deceased is survived by a widow, Mrs. Mary McDonald, and three daughters, Mrs. George Graham, Mrs. F. E. Croft and Miss Mary McDonald. Funeral services will be held here tomorrow.

In the early days of Richmond

CABLEGRAM IS CAUSE OF FEAR TO RELATIVES

"Leave St. Petersburg today for Vladivostock in armored train that is carrying one company of Cossacks and one company of Russian lancers as armed guard. The 'provost' captain in charge of the two companies informs us that our train may be attacked at any time."

Such was the particulars of a cablegram received today by J. B. Baldwin, local real estate operator, from his brother-in-law, Charles W. Cook of San Francisco, a wholesale druggist, who with his wife has been spending the past few months in St. Petersburg.

Several parts of the cablegram which was postmarked St. Petersburg had been scratched out by the censor.

Considerable anxiety was experienced by Mr. and Mrs. Baldwin, residing at 2217 Nevin avenue, following the receipt of the cablegram, as it will be several days before they arrive in Vladivostock on their trans-Siberian train.

It is supposed that the attack feared by the Cossack captain may come from the wandering bands of Tartar hordes who prey upon American tourists crossing the Siberian steppes, these having been considerably worked up since the European war broke out.

REPORTERETTE GRANTED FINAL DIVORCE DECREE

Mrs. Edith Huston, former reporterette on the Daily News of this city and prominent member of the Richmond Club was today granted her final decree of divorce from her husband, John F. Huston, in the Superior court at Martinez.

Mrs. Huston was granted her interlocutory divorce decree on May 12th, 1914. Immediately afterward she secured a position with the Daily News, winning considerable mention for herself for the capable manner in which she handled social and fraternal news notes.

Huston is employed as a bricklayer at the Standard Oil refinery and resides on the west side, while Mrs. Huston, with her two children, make their home at 448 Twelfth street.

Lumber Schooner Docks.

The lumber schooned, Marino No. 1, from Eureka, docked at Ferry Point today where she is discharging a cargo of shingles and flooring for the Burg Brothers' lumber Co. of this city.

Rev. J. S. McDonald established a church in this city and for a number of years was pastor of the congregation. On account of failing health he resigned and returned to his former home in Marin county. Many Richmond people will learn of his death with great sorrow.

Independent Democratic — Official Paper of City of Richmond

WHAT IS A NOODLE?

The department of agriculture is agitated over the problem, "What are noodles?" Also over the connected problems of the precise nature of spaghetti and macaroni. There is going to be a formal hearing on May 14 to decide these momentous questions.

Noodles, according to the Century dictionary, consist of "dough formed into long, narrow strips, or sometimes into other shapes, dried and used in soup." That seems fairly simple. Of course, everybody—except possibly government officials—knows what noodles are, but it's gratifying to have the backing of the lexicon. There are human noodles, too, but they have nothing to do with this inquiry.

Spaghetti is almost as easily disposed of. The same authority corroborates the general, unlearned impression that this is a similar substance, made "in form of cords, smaller than ordinary macaroni, but several times larger than the threads of vermicelli."

That brings us to a consideration of macaroni, which might carelessly be described as a larger variety of spaghetti, made in the form of pipes instead of the strings. But, ignoring the mystery of how the holes get into the macaroni, we find after a little research that macaroni doesn't necessarily have holes in it—that it may just as well come in the shape of ribbons or strings or threads or lozenges or disks or squares or curl papers or any other of fifty-seven more varieties.

In other words, all this sort of stuff is macaroni, as any Italian can testify. Noodles, which are not distinctly German at all, in spite of their name, are simply ribbons of macaroni, and spaghetti is strings of macaroni. These conclusions are respectfully submitted to the department of agriculture.

Some of our Republican contemporaries are charging that the present tariff is responsible for a deficit in the treasury and in the next breath they are thanking God on the assumption that the war "has saved the country from the devastating Democratic tariff." That is queer logic and it would be interesting to know how many people can be deceived by it.—Woodland Democrat.

Germany is said to have summoned to the colors men 63 and 64 years old, of the military classes of 1869 and 1870. Among these will be many survivors of the Franco-Prussian war. It makes a striking bridge of history, from 1870 to 1915. But it's a rather pitiful spectacle—those old men, who ought to be sitting by the fireside in easy chairs, going into the trenches to save the empire they helped to create.

Insurance companies have abandoned the issuance of policies to travelers going aboard, owing to the great risk caused by submarines. The payment of policies issued to passengers on the Lusitania will cost the insurance companies $6,000,000.

WOMEN PEACEMAKERS FAIL

A delegate to the women's peace conference at The Hague declared that for every woman in England who wanted to attend that conference, "a thousand English women are willing to accompany their sons and husband to fight."

It was probably true, and true not merely of England but of all the other belligerent countries. It indicated two facts which the peace conference promoters were disposed to ignore: That the time for peace talk has not yet arrived and that women, in spite of the suffering to which war subjects them, still have as much of the war spirit in their hearts as men have.

If the modern, progressive leaders of womanhood are to accomplish anything with their peace propaganda, they must first rally their own sex to their support. Without such backing they may expect little from their petitions to prime ministers and kings.

The woman's peace conference was a failure, partly because it was ill-timed, but chiefly because women the world over still think and feel about war matters just about as their husbands and fathers do. They still justify war, even in their suffering and bereavement. It is the exceptional woman who dares to criticise her government for going to war. It is the exceptional woman who can resist the contagion of military uniforms and marching feet, or think clearly about a war in which her own relatives and friends are fighting. War, the great deceiver, poisons women's minds no less than men's.

There are thousands upon thousands of stalwart Americans today who are thanking the Ruler of the Universe that Woodrow Wilson is occupying the President's chair in the White House at Washington and not a jingoist of the Roosevelt type. Anybody with an atom of fairness and sound judgment in his mental composition after reading the President's note to Germany on the Lusitania incident cannot help being impressed with the wisdom of the course which Mr. Wilson has mapped out for the Nation to follow. These are critical times and the possibilities for the future make strong men tremble with fear, but if there is a man in the United States who can steer the ship of state through placid waters to a safe haven, that man is Woodrow Wilson.

Far be it from an innocent bystander to presume to advise the German admiralty. Bue we can't help thinking of what might be accomplished in naval effectiveness if the German navy would devote to the destruction of the enemy's warships the energy it is misusing in its attacks on neutral ships.

"A Virginia factory will make two and a half million shrapnel shells for a European consumer. An ample supply to fill at least 500,000 graves," says the Portland Oregonian.

Congratulations To:

MAY 14.

Hon. James Donald Cameron, former Secretary of War under Grant, United States Senator from Pennsylvania, and a powerful factor in Republican politics, is 82 years old today. Although he has been out of active political life since he left the Senate 18 years ago, he continued for several years to be a valuable adviser of the Republican leaders. Last December he placed his fortune, estimated at $3,500,000 in the hands of trustees to hold during the life of his children and grandchildren. His wealth is represented in coal and iron mines in Pennsylvania and in large property holdings in Washington. Much of his fortune was made in reorganizing the Northern Central Railroad, of which he was president from 1863 to 1874.

Mr. Cameron was born at Middletown, Pa., May 14, 1833, the son of U. S. Senator Simon C. Cameron, whom he succeeded in the upper house of Congress. He was educated at Princeton and became a bank clerk. He worked his way to the president of the bank. In 1876 he became Secretary of War in President Grant's cabinet, resigning the following year to succeed his father in the Senate, where he served until 1897. With Senator Quay he ruled Pennsylvania politics with a strong hand. At present he makes his home on his farm at Donegal, near Harrisburg.

Hall Caine, celebrated English novelist and dramatist, is 62 years old today.

Brig. Gen. Theodore A. Bingham, U. S. A., retired, former police commissioner of New York, 57 years old today.

Hon. Alton B. Parker, famous jurist and candidate for the Presidency, 63 years old today.

Bishop Theodore S. Henderson, M. E. Church, Chattanooga, 47 years old today.

Charles B. Howry, who recently retired as judge of U. S. Court of Claims, 71 today.

Sir Gerald Strickland, governor of Western Australia, 54 years old today.

Jake Daubert, star first baseman of the Brooklyn National League team 30 today.

This Date In History

World Events of May 14th.

1501—Amerigo Vespucci sailed with three ships from Portugal on his third voyage to America. He reached Patagonia.

1785—Canal opened between the Baltic and North Seas.

ZONE DAY GREAT EVENT AT PANAMA-PACIFIC FAIR

At all of the great expositions held in this country in recent years, beginning with the never to be forgotten "Midway Day" at Chicago in 1893, there has been set apart a particular special date, officially designated as Concessionaires' Day—a day upon which the showmen who are responsible for the amusement novelties and entertainment features which are a part of all expositions, have full control of everything, from the opening of the gates until they close at midnight.

In the history of each exposition it was written in red letters as "some" day. In its preparation it always gave such promise of overshadowing all merely formal events that the official designation could not convey the full significance. So in Chicago it became Midway Day. At St. Louis it was Pike Day, and now, at San Francisco it is to be Zone Day, with the zip, zim, and zest supplied by the concentrated energy of one hundred of the world's greatest showmen.

May 27th, the Day.

The date is Thursday, May twenty-seventh, and the program, arranged by a special committee of experienced amusement purveyors, will provide enough free thrills and features to be scattered over an entire week, and yet make each day big enough to be called a special day. When such a program is to be crowded into a space of approximately fifteen hours, the best description is that there will be "something doing every moment," from the first fanfare of trumpets and the booming of battleship guns, announcing the arrival off the Marina of the royal barge of the Queen of Joy, until the dimming of the lights on the Tower of Jewels brings the day of revelry to an end.

Earth, Sea and Air.

Being limited to the earth, the sea, and the air, the showmen, whose investment at the Exposition reaches the enormous total of $10,000,000, have devoted themselves to demonstrating man's triumphs over these elements. The nations of the earth will be assembled, and will pass in review in the monster parade. The barefoot savage will be seen in the pageant, carrying the spear and shield of primitive defense; tribesmen from the far corners of Asia, mounted upon soft-footed camels and gaily caparisoned elephants; slant-eyed Orientals, in coolie-drawn 'rickshas; and representatives of all the nations of the West, in every form of conveyance, from the slow-gaited ox-team of pioneer days to the swift, luxurious automobiles of now.

The Submarine.

In the sea will be shown an actual demonstration of an agent of destruction of which every American has read much of late, the deadly submarine mine performing its work of horror, actually blowing into atoms a battleship which will steam its course across the placid waters of the bay of San Francisco.

Art Smith There.

In the air will be seen Art Smith, the world's most intrepid aviator, whirling, dashing, looping the loop, writing the word Zone on the clouds, and giving an exhibition of flying straight up, straight down, sideways, and edgewise.

These are only three of the features, chosen at random from the program of twenty-four big free events that will be given for the entertainment of the public Zone Day.

Nothing Like It.

There has never been an exhibition like it. Most likely there will never be another one. Authorities on such events predict that Zone Day will be the biggest in all the exposition, and that fully a half million people will take advantage of it: That it will easily surpass opening day, when a quarter of a million persons passed through the gates, is admitted by everyone.

So mark it down now, Zone Day, Tuesday, May twenty-seventh.

PARADE OF G. A. R. ON MEMORIAL DAY

Arrangements were completed at the meeting of members of the G. A. R. last evening for the holding of a monster parade on Memorial Day, May 30th.

It is planned to have the members of Stotsenberg Camp, Spanish War Veterans, also participate in the parade, together with several hundred school children.

Several fraternal drum corps signified their intention of participating in the big event.

Liberal Credit—and No Interest

Axminster Rugs $12.95 while they last

—We are now offering another small shipment of full room size Axminster Rugs, 9 feet wide by 12 feet long, at $12.95.

—This is only the second time in Oakland history that a rug of this character has been offered at such a ridiculously low price, our own offer early in April being the first. The colorings are good and there are half a dozen Oriental and Floral patterns.

Hammock Time Is Coming—

Woven Hammocks with stretcher, pillow headrest and flounced sides, from $1.50 to $8.50.

Brown Canvas Couch Hammocks with upholstered Leggett spring seat, $20.

Canvas Couch Hammocks, made in our own shop of extra heavy brown canvas with high ends and windshield back, fitted with four-inch thick tufted seat cushion, covered with same canvas. For outdoor bed-couch or swing couch-hammock this is the most comfortable and strongest on the market. Price $14.

Striped and Plain Canvas Hammocks with scalloped flounces, $2.75.

Adjustable Hammock Stands, $7.50.

Adjustable Canopies, $7.50.

$9.75 Special

For the coming week only we will sell these big roomy rockers, like picture, upholstered in brown Spanish leatherette, at $9.75. This covering is something new, very soft and pliable and will outwear any other imitation of leather.

OPENING ROAD TO PARK WILL BECELEBRATED

SAN JOSE, Calif., May 14—Please make immediate preparations to attend the Panama-Pacific Exposition on Tuesday, May 18, 1915, to help the Sempervirens Club of California celebrate the completion of the new State Automobile road from the Saratoga Summit to the California Redwood Park.

This opens the park to our greater centers of population. It opens the greatest wonderland of the world for 1915.

We have accomplished the great task we set out to do. Come with us, we need your help. We need the help of every resident of California. Invite your friends.

Let us show every tourist this spot in 1915; make this wonderland ancient forest do for California, what the Cedars of Lebanon did for Palestine. It will attract the whole world.

Nature has done so much for this most interesting, ancient and beautiful forest that it will be to California and do for California what her citizens wills it to do and be. Our every exertion will be repaid an hundred fold.

No tourist to the Exposition can afford to go home without seeing this wonderland—the Big Trees of the California Redwood Park.

The committee have arranged the following program: The Citizens will assemble at the Scott street entrance at 2 p. m. sharp, parade to the California Building, escorted by Exposition officials, military, and official band. Exercises: Introduction of President of the Day, by Alex P. Murgotten, President of the California Pioneers of Santa Clara county; 2.—Andrew P. Hill, president of the Sempervirens Club of California, president of the day, "A Concise History of the Club and Its Work;" 3.—Address, Professor C. B. Wing, of Stanford, Vice Chairman of California Redwood Park commission, "Construction of the New Road;" 4.—Presentation of Commemorative Bronze Medal by Official of Exposition; 5.—Acceptance and Response, Hon. Herbert C. Jones; 6.—Address, Hon. James D. Phelan, U. S. Senator, "Worth of the Park to Educational Institutions and Civic Bodies;" 7.—Address, Mrs. Lovell White, "The Help of the Women of California in Acquiring the Park;" 8.—Address, Hon. John F. Davis, Grand President N. S. G. W., "The Interest Manifested by the Fraternal Societies;" 9.—Address, Hon. Wm. R. Flint, "The Legislature;" 10.—Address, Wm. G. Alexander, "The Value of the Park to the Business World;" 11.—Address, Judge Isaiah Hartman, "Mountain Homes."

The above addresses will all be short, snappy and interesting and will be well worth listening to. Don't forget the date and time, Tuesday, May 18th, 2 p. m. Come and bring all your friends.

Respectfully,
ANDREW P. HILL,
President.
ALEX. P. MURGOTTEN,
Secretary.

PHONE REGULATIONS IN THE NORTHWEST

SEATTLE, Wash., May 14.—The Public Service Commission of Washington has called a public hearing for tomorrow on the valuation of Washington plants of the Pacific Telephone & Telegraph company, as a preliminary step to regulation of rates and charges in this state. The case will probably occupy two or three weeks. Engineers employed by the state have been engaged for the past two years in taking the physical inventories of the plants.

A SAD MISTAKE

Do your glasses fit you? Unless your glasses are accurately fitted and the exact strength needed to correct your defect, they will be absolutely purtful. To get correct glasses, we recommend you to see Dr. C. H. Blake, 794 MacDonald Ave., at 7th, Richmond, Cal. ad.

200 DELEGATES AT BAPTIST CONVENTION

More than 200 delegates were in attendance at the First Baptist church today at the opening of the first annual convention of the Contra Costa Sunday School association.

The visitors coming from all parts of the county were met at the Santa Fe and Southern Pacific depots by various members of the reception committee and escorted to the church auditorium.

President Guy A. White, pastor of the First Presbyterian church of this city delivered the opening address of the day, at the close of which the following program was carried out:

7:30—Praise Service—Otis Ironmonger, leader; J. Chester White, organ.
Piano solo, 6 year old Geraldine Quinley; Male quartet; violin solo, Prof. Leo. Trueblood.
8:00—Address of Welcome, Rev. S. K. Skinner, pastor of Convention Church.
8:10—Response by County President, Rev. G. A. White.
8:15—Address, "The Evangelistic Opportunity of the Sunday School," Rev. W. H. Oxtoby, D. D.
9:00—Solo, "Call to Arms," Otis Ironmonger.

Some of those notable in church work in attendance at the convention who delivered short addresses during the day were Rev. W. A. Gilchrist, principal of the San Francisco Bible College, Miss Doda Flouroy of Crockett, secretary of the association and R. R. Huston of Byron, treasurer of the society.

AUTO TOURS ARE DELAYED BY SNOW

The Moutain roads of the main transcontinental routes leading to the Panama-Pacific Exposition as well as throughout all of the Pacific Coast states are at present covered with snow, is the announcement just made by the Goodrich National Touring Bureau. The heavy snows of last winter are piled so deep on the summit of the Sierra mountains that motorists must wait four or five weeks before the passes are traversible.

The Coast states have experienced an unusual amount of rainy weather and in the Mountain districts this hain has been snow. The temperature has been exceedingly cold for the Coast. Transcontinental motorists who intended to tour across the country in June can safely do so taking either the Lincoln Highway route or Overland Ocean to Ocean highway, both of which routes have been published by the Goodrich National Touring Bureau, while sectional Route Books of the Goodrich Touring Bureau enables the motorist to proceed west from Atlanta through Alabama, Mississippi, Arkansas, Texas, Arizona and New Mexico into Los Angeles or San Diego.

Practically all of the transcontinental routes will be feasible traveling after June 1st. The motorist on the middle routes should not neglect to visit Denver and the hundreds of scenic automobile drives in Colorado which go to the famous resorts and interesting spots, all of which can now be reached on excellent stone road.

COMING EVENTS

May 15—Wesley M. E. church picnic at East Shore Park.

May 15—Moose Defenders Military Ball at East Shore Park. Music by Schwartz orchestra.

May 20—At Richmond Club, "An Evening of Music," given by Evelyn Thrift Dahlstrom, contralto, soloist of the First Church of Christ, Scientist, assisted by Miss Loe Blodgett, soprano and violinist, and Wm. H. Stidham, accompanist.

May 21—Informal dancing party by Miramar Chapter, No. 203, O. E. S., at East Shore Park. Invitational.

May 23—Annual picnic of Maennerchor at Giant Park, 25¢ admission to grounds includes trips to and from park.

JUDGE IS JAILED IN IMPEACHMENT PROCEEDINGS

INDIANAPOLIS, Ind., May 14.—The impeachment proceedings that were brought in the Indiana Supreme Court against Judge Eli H. Redman, of the Vigo County Court, who is now a federal prisoner at Leavenworth for election fraud in connection with the famous Terre Haute case, will be heard today. Mayor Don. M. Roberts of Terre Haute, the ringleader in the frauds, has already been impeached.

A summons for Judge Redman was left at the "usual place of residence" of the judge at Terre Haute, there being no provision for serving a summons on him in the federal prison. A suit is pending at Rickville, Ind., to contest the election of Judge Redman, and, should he be ousted from office by the Supreme Court, Governor Ralston will appoint a successor, to serve until the Rockville suit is determined.

Judge Redman was elected by a majority of ten votes last November over Charles Pulliam, the Republican candidate, for judge of the Circuit Court. A considerable portion of the federal indictment was devoted to the alleged frauds practiced in the Taylorville precincts of Terre Haute. These precincts gave Judge Redman, a young lawyer, also convicted, to see that the regular election board of the Taylorville precincts was kept from serving. It was also charged that Judge Redman promised Charles Smiley that if he would vote all the names registered in a certain precinct, that he would appoint him bailiff of the court.

One of the most sensational features of the recent trial centered in the slush fund raised by assessing saloon keepers, gamblers and inhabitants of the underworld by promising them immunity from punishment when they violated the law.

Judge Redman took the witness stand last March during the famous trial, and denied every item of evidence produced by the Government. He maintained his innocence of the charge of complicity in the conspiracy or the frauds as actually committed.

Is Fight Victim.

Peter Roco has several scalp lacerations which he received in a fight at San Pablo last evening treated at the office of Dr. C. E. Camp today.

GOVERNMENT TO SEND DOCTORS TO ARCTIC

SEATTLE, Washington, May 14.—The coast guard cutter Manning which has been doing patrol duty off Alaska, will be fitted out here for a Behring sea cruise. The cutter will arrive tomorrow. On her next cruise, the Manning will visit the out-of-the-way settlements north of the Arctic circle in the vicinity of Point Barrow. These settlements are seldom visited by white men. During her call, the Manning will furnish government surgeons for the sick.

The cutter will leave here about July 1, returning a month later to go to San Francisco where she will represent the Coast Guard at the Exposition, replacing the McCullough, which is to take the U. S. District Court judges for Alaska on the annual visit to Alaskan points for the hearing of civil and criminal cases.

YELLOWSTONE PARK IS NOW OPEN TO AUTOMOBILES

The Department of Interior will permit automobiles to enter Yellowstone National Park on and after August 1, 1915, under appropriate rules and regulations. These rules and regulations are now being formulated but will not be available for general distribution until sometime next month.

The Goodrich National Touring Bureau has prepared route descriptions from all points of the country to Yellowstone, entering either via Cody on the east side or Gardiner at the North Gate or via Pocatello and the west gate. All regular traffic in the Park will be required to move in one general direction in making a circuit of the park, the automobiles leaving before the stages, both morning and evening, from the different entrances or from intermediate stations inside of the Park. Schedules on which the machines will be required to run will constitute a part of the regulations.

The above announcement is made by the Goodrich National Touring Bureau to enable motorists who are planning a visit of the west to take advantage of this opportunity of seeing Yellowstone National Park.

Now $11.45

NEW ADDITION TO HOSPITAL ACCEPTED

The board of supervisors today accepted the addition recently made to the county hospital by the contracting firm of Word, Kerr & McLean at a cost of $30,000.

With the new addition the hospital is now one of the finest and most up-to-date structures of its kind around the bay.

REFUSED DIVORCE WOMAN SHOOTS HUSHAND

KANSAS CITY, Mo., May 14.—Mrs. Clara T. Schweiger, who shot and killed her husband, Louis L. Schweiger, in the corridor of the courthouse after her request for annulment of divorce had been refused, will be given a preliminary hearing tomorrow. The shooting took place on May 1st, and Mrs. Schweiger tried to suicide. Her husband had secured a divorce last November, and the woman had applied for annulment. She is now charged with first degre murder, and has een held in jail without bond awaiting tomorrow's hearing.

GRIM WAR IS NOT EXPECTED

(Continued From Page One)

President Wilson will direct his efforts for the avoidance of war in any form, and warlike measures will be taken only when it is necessary to protect commerce.

If it comes to the worst the President, it is said, will discontinue all diplomatic relations with Germany and seize all Teuton vessels interned in American ports.

It was not expected that Germany's reply will be long delayed.

THE HOUSEWIFE'S NEED

Takes the Place

of the old wooden clothes horse when ironing.

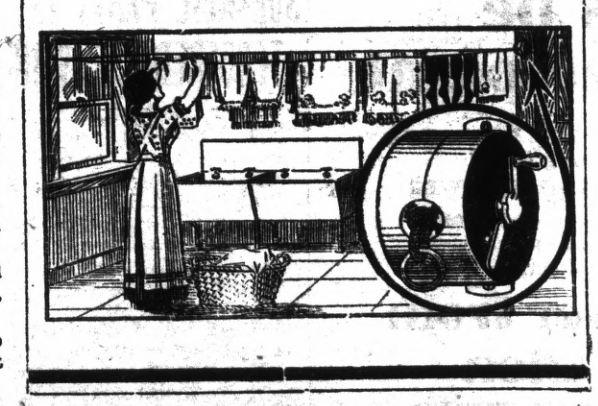
Always in place ready for use when needed. Out of use it is out of the way.

Permanently attached to some out of the way corner of the wall or woodwork.

Carries 36 feet of tightly braided high grade cord protected from the dust or steam-laden air.

Serves many purposes. Ideal for sick room, nursery, kitchen, bath-room, back porch.

It requires but a minute to draw out line and hang it about as shown in picture.



High-Grade

Reannealed Steel used in its construction. Carries a ratchet making it possible to lock the reel as well as tighten the cord to a point where it will carry 40 pounds or more. Nothing to get out of order. It is guaranteed indefinitely.

It is furnished complete with screws and hooks ready to be attached to the woodwork. Can be placed in position with an ordinary screw driver.

The picture shows exactly how it appears when in use.

ALASKA IN ITS RELATION TO AMERICAN TRADE INDUSTRY

WASHINGTON, D. C., May 14.—Merchandise and treasure to the value of $66,500.00 moved between Alaska and the United States in 1914, an increase of $4,000,000 over 1913. Our shipments to Alaska last year, according to the Bureau of Foreign and Domestic Commerce, Department of Commerce, aggregated $22,500,000, including approximately $14,300,000 worth of manufactures, $6,200,000 worth of foodstuffs, and $2,000,000 worth of gold, silver and miscellaneous materials, including foreign merchandise valued at $500,000. As a market for our products Alaska, having a population of only 65,000, is of equal importance with China with a population of 336,000,000.

Alaska's great purchasing power is a natural corollary of its enormous resources, mainly gold, copper, fishery products, and hitherto undeveloped beds of coal and other minerals. In the period since 1867 Alaska has given to the world 250 million dollars' worth of gold, 183 million dollars' worth of fish, 65 million dollars' worth of seal and other aquatic fur skins, 20 million dollars' worth of copper, nearly 5 million dollars' worth of whale, walrus and fish oils, 2 million dollors' worth of silver, and whalebone, coal, gypsum, marble, tin and vegetables in sufficient sums to bring her total output to more than $500,000,000. This result has been achieved with a sparse population and an inadequate system of railway and other transportation facilities. With the new era government railway construction recently announced by the Department of the Interior the development of Alaska will be greatly accelerated and that territory, which already yields as much gold as the State of California, which produces half the world's salmon, and which includes a domain as large as our area east of the Mississippi River and an acreage for tillage several times that of those sections of Norway, Sweden, and Russia of similar latitude with 11,000,000 souls may be expected to attain an even greater degree of industrial and commercial importance.

Alaska's commercial relations are chiefly with the United States. Shipments to the United States last year were valued at $44,000,000. Canned salmon, $18,000,000; Alaskan gold, $14,600,000; Canadian gold, $3,500,000; Alaskan copper, $3,300,000; fresh salmon, $750,000; seal and other fur skins, $600,000; and miscellaneous fish and fish products, $1,250,000 were the largest factors. Our purchases of fish and fish products from Alaska last year totaled $20,000,000, or five times as much as imports of this class from Norway. Of salmon alone we bought from Alaska 200 million pounds in 1914, or an average of 2 pounds per capita.

Trade with Alaska has doubled in ten years. Our shipments of merchandise to Alaska increased from $11,448,423 in 1904 to $21,610,860 in 1914, while receipts of merchandise from Alaska have grown from $10,647,592 to $25,815,832. Receipts of foreign gold from Alaska fell in value from $9,950,520 in 1904 to $3,542,192 in 1914, while those of domestic gold rose from $9,096,957 to $14,598,237 in 1914, or double the sum of $7,200,000 paid by this county to Russia in 1867 for the territory in question.

The value of imports into Alaska from foreign countries last year was $662,994, of which $396,900 worth entered from Canada, $246,419 from Russia in Asia, and $19,675 from Australia and Tasmania. Domestic exports from Alaska to foreign countries totaled in 1914 $1,005,311, of which $976,610 went to Canada and $28,701 to Russia in Asia.

The foregoing facts regarding our trade with Alaska are from the "Monthly Summary of Foreign Commerce," which contains a detailed record of the movements of iron, and steel, tin, lumber, breadstuffs, cotton goods, wool clothing, gold, other minerals, canned salmon, furs, and all other articles making up the trade in both directions. Special Agent Series No. 67 contains a brief account of the general commerce and industries of Alaska. These publications are for sale by the Superintendent of Documents, Washington, D. C., and by the commercial agents in charge of branch offices of the Bureau of Foreign and Domestic Commerce at New York, Boston, Chicago, St. Louis, New Orleans, Atlanta, San Francisco, and Seattle, the first-named for $1.50 a year, or 15 cents for single copies, and the latter for 10 cents a copy.

"YOU GIVE ME THE SURPRISE OF MY LIFE YESTERDAY, PHYLLIS! YOU IN THAT ELEGANT SUIT!"

"And you wouldn't go to the matinee with us Saturday because 'you didn't have a decent thing to wear!' I didn't ask any questions yesterday because I didn't want to act surprised before the others, but, Phyllis, you've got to tell me now how it happened!"

"Willingly, Amy! I could hardly wait, because I wanted you to know about that glorious store, too. It's CHERRY'S, Amy—it's their blessed INSTALLMENT PAYMENT SYSTEM that came to my rescue, just when I needed it so.

"My new suit, Amy, cost very little, compared to what you and the other girls pay. CHERRY'S do not charge high prices, but there's nothing in the looks of their stock to make you think so. CHERRY'S are just the fairest and most courteous people I ever saw. Why, they arranged CREDIT TERMS with me, just as easily and so cheerfully! Hundreds of the brightest people in town buy their CLOTHES THAT WAY AT CHERRY'S—it's really the only sensible way to do, Amy.

"Every department is fascinating. You can get a stunning Coat there. The Oakland stores are exclusive—at 515 13th you'll find the ladies' shop and the men's clothes are sold at 528 13th street. Number 1009 Market street and 2400 Mission street are the San Francisco stores, and handle men's clothes as well. advt.

The young lady across the way says she guesses the Dardanelles must be a pretty wild tribe from the trouble it seems to be to take them. —Westerman.

THE WORD HELL.

A Little Book That Contains Some Startling Information.

A little book selling at only five cents, postpaid, is having a very wide circulation—running up into the millions. It contains some very startling information respecting the meaning of the word Hell. It claims to demonstrate, both from the Hebrew and the Greek of our Bible, that Hell is not a place of eternal torment, but merely another name for the Tomb, the Grave, the State of Death. It affects to show that man was not redeemed from a far-off place of eternal torture, but quotes the Scriptures proving that he was redeemed from the Grave at the cost of his Redeemer's Life and that the Scriptural Hope, both for the Church and the World, is a resurrection hope based upon the death and resurrection of Jesus. The book is certainly worth the reading. The information it furnishes is certainly valuable, far beyond its trifling cost. Order it at once from the Bible and Tract Society, 17 Hicks Street, Brooklyn, N. Y.

NOTICE OF AWARD OF CONTRACT NO. 247

Pursuant to Statute and to Resolution of Award No. 247 of the City Council of the City of Richmond, directing this notice,

NOTICE is hereby given that said City Council, in open session on the 3rd day of May, 1915, publicly opened, examined and declared all sealed bids or proposals offered for the following work, to-wit:

That Sixteenth Street from the southerly line of Ohio Street to the northerly line of Potrero Avenue, including the intersections of Florida, Maine and Virginia Streets with said Sixteenth Street, but excluding the intersection of Cutting Boulevard with said Sixteenth Street, be graded to its full width to the official lines and grades, paved with four and one-half (4½) inches of asphalt concrete and sidewalked, curbed and guttered with cement concrete. That corrugated iron culverts with corrugated iron branches together with concrete wing walls and portals be constructed on the easterly curb line of Sixteenth Street across Florida, Maine and Virginia Streets; and under the sidewalk return on the northwesterly corners of the intersection of the said Sixteenth Street with Florida, Maine and Virginia Streets.

Excepting any of the above work required by law to be kept in order or repair by any person or corporation having railroad tracks thereon, and further excluding any of the above work now in to the official lines, grades and specifications.

All of the above described work shall be done in accordance with the plans and specifications adopted by the Council of the City of Richmond for said work by its resolution duly passed at a regular meeting of said Council held on the 31st day of August, 1914, and numbered 247 now on file in the office of the Clerk of the City of Richmond, reference thereto being hereby specially made.

That said City Council, under the authority conferred upon it by the provisions of that certain act of the Legislature of the State of California approved April 7, 1911, and known as the "Improvement Act of 1911" determines and declares that serial bonds shall be issued to represent the expenses of said improvements; said bonds shall be serial, extending over a period of Five (5) years from the second day of January next succeeding their date, and shall be issued to represent assessments of twenty-five Dollars ($25.00) or more remaining unpaid for thirty (30) days after the date of the warrant issued to the contractor, or five (5) days after the decision of said Council upon an appeal; an even annual proportion of the principal sum of each bond shall be payable by coupon on the second day of January of each year after its date and until the whole is paid, and the interest shall be payable semi-annually, by coupon, on the second days of January and July, respectively, of each year at the rate of seven (7) per cent per annum on all sums unpaid until the whole of said principal and interest is paid; said bonds shall be issued in accordance with the provisions of said "Improvement Act of 1911."

Reference is hereby made to Patent License Agreement of Warren Brothers Company, dated March 3, 1915, now on file in the office of the Clerk of the City of Richmond.

And thereafter on the 12th day of May, 1915, by Resolution of Award No. 247, awarded the contract for said work to the lowest responsible bidder to-wit: To G. W. Cushing, at the prices named for said work in his proposal on file, namely:

FOR STREET WORK

For Excavating, $.10 Per Cubic Yard.
For Filling, $.45 Per Cubic Yard.
For Paving, $.13½ Per Square Foot.
For Cement Sidewalk, $.13 Per Square Foot.
For Gutters, $.14 Per Square Foot.
For Curbing, $.35 Per Linear Foot.
For Culverts, 8 inch, $.90 Per Linear Foot.
For Culverts, 10 inch, $1.00 Per Linear Foot.

Said award has been duly approved by the Mayor of the City of Richmond.

Dated May 13th, 1915.

(Seal) A. C. FARIS, City Clerk of City of Richmond.

First publication May 13th, 1915.
Last publication May 14th, 1915.

MOTORCAR OFF ON TRIP TO NEW YORK

SAN DIEGO, May 14.—As President G. A. Davidson of the San Diego Exposition waved the flag of Exposition colors on the stroke of midnight Thursday sending away E. G. Baker in a Stutz Bearcat on a run to New York City in an attempt to see how near he can come to the trans-continental motorcycle record of 11 days, 12 hours and 10 minutes which he made last year, a crowd of a thousand sent up the cry "He's off" and wished the intrepid driver success. The Stutz bellowed forth smelly exhaust, bowled over the Puente Cabrillo and hit the trail for Imperial Valley amid much eclat.

The start was an official one, the time being caught by representatives of the American Automobile association. In this long run from the San Diego Exposition to New York City, 3400 miles, Baker must drive the car alone according to his agreement. With him is W. F. Strum, an Indianapolis newspaper man, who is acting as the Three A, representative. Some idea of the hardships of such a trip may be gained from the expectations of Baker who plans to drive from 200 to 300 miles a day regardless of weather or road conditions.

In each city Baker must report to Three A representatives who will sign his credentials and record the time of his arrival. The route Baker selected for his run is through Yuma, Phoenix, Tucson, Bisbee, Douglas, Lordsburg, Deming, El Paso, thence north to Dodge City, Emporia, Kansas City, St. Louis, Indianapolis, Columbus, Pittsburg, Philadelphia, Jersey City and New York City. On his arrival at New York City he will present a message from Exposition President Davidson to Mayor Mitchell.

"I know it will be a hard run but I will make it in less than fifteen days and may be able to get very close to the record I made on a motorcycle," said Baker as he speeded away.

BRIGHT DAYS BRING BIG CROWDS

The pleasant weather of the past few days brightened up things materially, and especially in the neighborhood of the old British convict ship, "Success," docked at the Webster street bridge in Oakland, where hundreds of curious sightseers, on foot, in street car, jitney and touring car wended their inquisitorial way. After crossing the gangplank and once on board they found much food for thought and much that was novel and interesting on the four decks of this, the oldest ship afloat, launched in 1790 and for fifty years engaged in carrying the lawbreakers from England to Australia.

The "Success" is a veritable mine of information for any one interested in history and particularly in penological conditions. Everything is on board exactly as it was when the hundreds of unfortunates were taken on their long and hopeless voyage across the oceans and the obliging corps of lecturers carefully explain each object of interest on the quaint old craft. Visitors are welcomed on board every day between the hours of ten in the morning and ten at night and as the ship is brilliantly lighted with electricity an inspection after dark is strangely interesting.

WITNESS AFTER WITNESS IN RICHMOND

Such Evidence Our Readers Cannot Dispute.

As we take up the Record-Herald week by week, we are struck by the hearty, unmistakable way in which witness after witness speaks out as Mrs. Gorman does here. If these people were strangers living miles away, we might take little notice of them. But they are not. They are our neighbors, living among us. Their word is too easily proven to admit of any doubt. They speak out in the hope that their experience may be a guide to others.

"It was about two years ago that my kidneys were weak and I felt certain that all the pain I was suffering was caused by them," says Mrs. G. Gorman, of 1804 Nevin avenue, Richmond, "I had backache and every cold I caught made me feel worse. Two or three boxes of Doan's Kidney Pills rid me of these ailments and strengthened my whole system."

Price 50¢, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Gorman had. Foster-Milburn Co., Props., Buffalo, N. Y. ad.

Don't Make the Mistake

of believing that because Chinese Herbs are foreign cures that they will not be effective in your case. They are older than any other known remedies. Please call at my office and have your case diagnosed. It will not cost you a penny to talk over the matter. You will not recover your good health until you have made the right effort to do so. Let me help you. No minerals used.

IMPERIAL OIL FIELDS BOOM BIG COMPANIES

IMPERIAL, May 14.—Interest in oil development in Imperial Valley field is increasing. Since development began in the prospective fields, filings have been made on 60,000 acres of land along the west side of the valley. Out of a number of spasmodic efforts to drill for oil, those now being made are by the Ancient Beach Oil & Gas company, which has started systematic development work.

Work is also progressing on a tract of land owned jointly by the Black Gold Mining company and the Imperial Valley Oil Development company. The two companies are uniting their efforts to put down a well that will prove the holdings of both companies.

The lumber for the derrick is now on the ground and its erection will be commenced in a few days. All necessary buildings have been erected and nearly all the machinery and tools are now on the ground.

The annual meeting of the Black Gold Mining company was recently held and the following officers were elected for the ensuing year: President, J. Ed. Armstrong; vice president, P. A. Rust; secretary, Earl Wilkins; treasurer D. T. Jenkins; general manager, C. O. Worley.

Both companies are said to be in good financial condition and no fears are entertained of being able to prosecute the enterprise to a successful conclusion. Both companies are composed jointly of San Diego and Imperial county men. The progress of the work will be watched with keen interest, both in Imperial Valley and in other fields of the state.

TONIGHT AT THE RICHMOND THEATRE

WILL ORGANIZE COAL CONCERN IN WEST

CHICAGO, May 14.—Big financial interests, including Kuhn, Loeb & Co. of New York, are completing the reorganization of the Deering Coal Co., one of the biggest coal projects of the middle west, by the purchase of some 15,000 acres of coal lands by auction at Danville and Terre Haute. By direction of the United States courts of Danville and Indianapolis, the coal lands are being auctioned. Kuhn, Loeb & Co. recently bought some $7,000,000 worth of bonds and stocks under the hammer for $681,500. Stock to the amount of $3,249,600 brought a bid of $2,500 and claims against the defunct company aggregating $250,000 brought $200.

It is said that the coal tracts to be auctioned to the highest bidder are the most valuable tracts in the United States. When the original company was launched ten years ago, ten millions in gold bonds and capital stock were issued. The Chicago and Eastern Illinois R. R. purchased practically all of the issue, then transferred the securities to Kuhn, Loeb & Co. and the Continental Bank as collateral. A few months ago the receiver for the railroad announced the road's inability to continue payment of interest on the railroad company's notes and the foreclosure took place.

TOMMY SEATON IS PLAYING GOOD BASEBALL

Tommy Seaton, on whose face is the bloom of several Contra Costa summers, and whose adaptability in baseball has caused his name to be on the salary roll of the "Feds," yesterday held the Chicago team of that league to three hits and winning his own game for Brooklyn in the last of the ninth with a slashing two bagger.

Although Brooklyn won 6 to 1, the game was one of those slam-bang affairs from the start in which Black, Johnson and Wilson were worked out by the "Chifeds."

Seaton formerly tossed barrels at the Standard Oil refinery in this city for six days out of each week, while on the seventh, which was generally the Sabbath, he would don a Richmond uniform and act as mound artist.

DIXIE MINSTRELS AT RICHMOND SUNDAY

Preceded by a band concert and street parade next Sunday, the Dandy Dixie Minstrels will give two performances at the Richmond Theater and present a series of musical acts and variety performances without an equal in minstrel work anywhere. The company is made up entirely of colored performers among whom are the following stars: Pope and Dallas, tightwire artists; Dixie Serenaders, highest salaried colored quartet in the world, Johnson and Mackey, the world's greatest blind musicians, singers and comedians, presented by Chas. S. Black.

Although the biggest attraction which has been booked at the Richmond for a long time, there will be no advance over the regular Sunday prices.

Today's and tomorrow's show features some of the classiest performers of filmdom in comedy and drama. Charlie Chaplin, who has been absent from the Richmond for some time now, reappears in "The Star Boarder," a comedy of the old time boarding house. Blanche Sweet in "The Captive" interests and thrills the audience and the story of the innocent and the crafty is shown in the drama, "Two Women."

The allies are having their turn in Belgium, and Germany appears to be dropping back despite the Kaiser's rush of reinforcements to the front.—Chronicle.

ROOM DECORATIONS TO PLEASE THE TOTS

A new and noteworthy feature in the children's room at the public library is a unique frieze made of a series of objects familiar to childhood. Sunbonnet babies, elephants, cats, dogs, roosters, etc., in bright water colors, march solemnly one after another around the walls of the room, forming a long and delightfully varied procession that children will never tire of looking at.

This frieze will be ready for the children to see Saturday afternoon at the regular story hour, when selections from Kipling's "Just So Stories" will be told. All children are urged to be present on this festive occasion.

LOSS OF HAIR THE REASON

Dandruff, sluggish circulation of the blood through the scalp, impaired vitality of the hair follicles—these cause the death of hair.

Dandruff indicates a diseased scalp and a diseased scalp cannot properly nourish the hair. When the hair fails to get proper nourishment it dies and falls out.

Our hair tonic removes dandruff, stimulates the scalp, strengthens the vitality of the hair roots, causing a more healthy growth.

Our hair tonic will stop falling hair. It is not claimed that it will cure baldness, but it is used by people with thin and straggling locks, as well as by those whose hair is abundant, long and luxuriant. It is decidedly a toilet necessity, not a luxury. If you value your hair you will appreciate our hair tonic. Price 50¢.
